On Sunday, Apr 07, 2019 at 2:16 PM, the form "AGM Notice of Motion Submission Form" was submitted by IP 99.243.33.191. The responses provided are as follows:

Motion: Should the DMHA be considering to change the Tryout process from September to end of August then for the 2019-2020 Season Tryouts should be held in September of 2019 and for the 2020-2021 Season Tryouts to be held end of August 2020.

Objective: To give families times to adjust to the change of upcoming tryouts from September to the end of August.

Rationale: Since the DMHA is looking to change hockey tryouts from September to the last week of August, it would be logical and fair to implement this change in the 2020-2021 season to allow everyone to adjust to the change. Many employees have to provide vacation times well in advance or have set vacation times and are not able to make changes at this late date. Delaying the change of tryouts for a year will allow families who have already made and paid for vacations this August to still be able to go on their vacation and be available for tryouts in September as in the past. If the tryout week is changed this year, you will have players who will not have the opportunity to tryout because families were not provided ample notice of the change.

It should also be noted that senior hockey players who have summer jobs often only have the last week of August off for vacation and giving them the years notice of the change to tryouts will allow them to be able to adjust their schedules and holidays accordingly.

Hopefully the DMHA will respond positively to this motion.

Thank you, Trish & Elliott Gnidec
